1978 11/27 SEMINAR at Wisdom's Goldenrod Hinduism; Vesica

[Alan Notes 1127 1978 Begin]

11/27/78 Vesica - Seminar

[FIGURE 1978 1127-1-AB. Vesica of Cosmic Tattvas and Human Principles, Lokas and Talas, with Demiurge Jupiter-Tail Ring. Pur = Purusha; Pr = Prakriti; B = Buddhi; A = Ahamkara; M = Manas, KI = Karma Indriyas. Facsimile scan from AB class notes.]

Signs on left (Pisces) derived from opposite in Capricorn (cosmic tattvas).

3 circles -- metaphysical (is superimposed on fourth quadrant).

Two levels of vesica.

Svar -- the consciousness we operate with (first house) is based on the prana body.

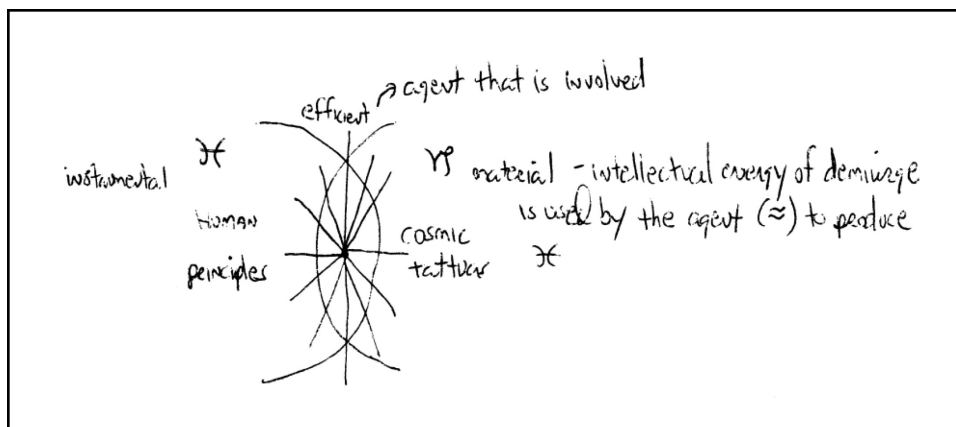

Talas and lokas are in Pisces = 6 Buddhist realms.

Aquarius = manas = archetypal psychical essences which are the substratum of what appears in Pisces.

True lokas are in Aquarius but appear as subjective (loka) and objective (tala) in Pisces.

The Atma consciousness coincides with the entirety of the galaxy you live in and is derived from Adi.

6 stages (tattvas and lokas) are derived from it.

Manas is derived from the ideas in the ether (Scorpio → Taurus).

Tejas gives life to the astral - body.

Astral - Physical:

Bhur -- common sense (subjective)

Patala -- physical world discerned by common sense (objective)

The tala is the objective counterpart or content of the subjective consciousness in loka.

Vital astral = kama.

Outer ring (lokas, etc.) are not fixed -- in an individual chart different levels of outer ring can correspond with different levels of soul (vesica). I.e., whatever your 'I AM' consciousness identifies with is in first house (Jupiter).

Each level of Pisces is a monad in its own right (buddhi, linga, kama, astral, prana, manas). I.e., each has a Unity-Being-Life-Intellect-Soul-Nature-Body -- there is an astral in itself independent of the astral in each of us.
