Corbin -- mundus imaginalis -- eighth clime. [Note: Henry Corbin, *Mundus Imaginalis, or, The Imaginary and the Imaginal*.]

What the man of light perceives is within him.

The imaginal body is coincident with the universe.

The symbolism of the Self that Jung works with is an attempt to get to the inner meaning of the image.

Linda read paper on Monday Astrology.

Soul power (planet) is organized by the degree it sits on (reason-principle) -- progressions unfold the degree within the structure it provides.

Being assimilates knowledge -- fabricative.

Knowledge assimilates being -- gnostic.

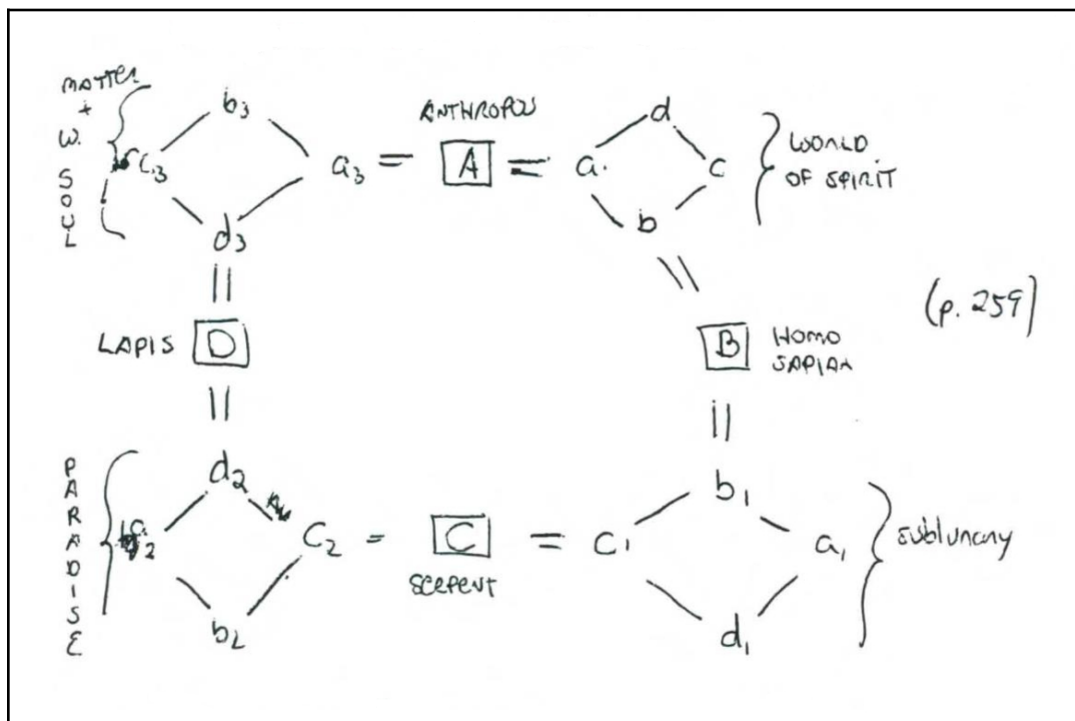

The self-apperception (planet – Saturn) is organized according to the degree (reason-principle).

→ the identity and continuity of the native

Paul [Damiani] -- Archetype/Symbol of the Self in Jung

Archetype of the Self = Gnostic Anthropos.

Idea of Man has four levels. Each quaternity = the world and processes at that level.

[FIGURE 1982 0508-2-AB. Jung's Archetype of the Self (*Aion*, p. 259). W. Soul = World-Soul. Facsimile scan from AB class notes.]

Four Quaternities

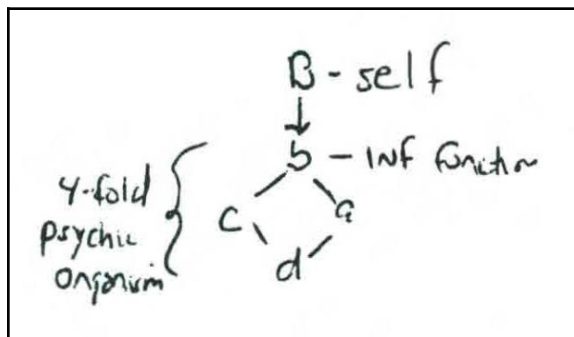

Homo Sapien -- collective man.

Paradise -- renewal process of life -- albedo, baptism.

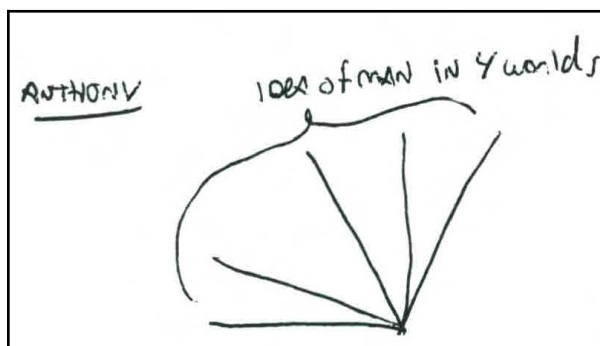

Lapis -- secret of matter, ether, freeing of soul from material sheaths.

The Self has access to the ego through the inferior function.

The Self manipulates the ego through the inferior function.

JUNE F. NOTES

[JF NOTES 3.PDF, pp. 933-34 Begin]

Categories of the Imagination

Corbin - *Mundus Imaginalis*

When we truly go inside, that inside envelops all the external world.

Spiritual reality is the "where" of all things.

3 worlds

physical sensible - world of phenomena

sidereal universe

world of angels - at the (outer) surface of the ninth sphere

[other threefold levels]:

senses - imagination - intellect

body - speech - mind

7 climes [of Chaldean planets]

8th clime has features of imaginative perception that cannot be perceived by the senses, the forms have no extension and dimension - mundus imaginalis.

Avicenna [Henry Corbin, *Avicenna and the Visionary Recital*] annotated Plotinus last three Enneads: separate (world) entities, but all subsist in each. The soul is (individual) and it is this imaginative entity, and which separated from this world, continues in that.

The Soul Power is organized by the degree or reason principle that the planet is sitting on.

The Being assimilating Knowledge and the Knowledge assimilating Being.

Dignity - Knowing. Non-dignity - Being.

From *Aion* on the Self associated with the Idea of Anthropos [quotes references written on blackboard, parag #s]

249-251-252, 288, 289-292, p. 191 footnote, 312, 333, 411

4-fold structure

1) purely natural and instinctive life

2) rejuvenated or reborn, life endowed with meanings

3) restoration - (process) of the original man

4) marriage with the logos, Nous, or [illegible]

Platonic text ?? [unsure which] 4 levels as in:

1) operations of natural things - sublunary

2) ([illegible] of the divisions) of Nature

3) [ditto] of Soul

4) [ditto] of Intellect

Through the inferior function, the Greater Man can control the ego.

unconscious = unconscious to the ego

When your conceptions are getting close to the meanings, you're becoming properly aligned.

The development of consciousness: Consciousness in mankind - If not a mistake we'll have to learn to use it.
