Normal aspects [Note: Normal = Regular.]

Pluto semi-sextile Pluto -- empowerment, semi-sextile.

Pluto in Taurus -- attempt to understand the transformations in Nature.

Pluto quincunx Sun -- leading towards her life purpose.

Transits are showing the preparation of the vehicle for higher knowledge, not the knowledge itself.

The vehicle had determination, integrity, purpose.

Saturn Venus natal -- feelings are oriented to be reflective.

Sun transit to Saturn Venus confirmed her theory/feeling.

Jupiter (transiting) trine Jupiter -- direction of work was confirmed through a series of opportunities, encouraged to continue your direction.

Uranus square Neptune -- theoretically reflectively trying to understand the World-Idea.

Saturn (transiting) trine Neptune -- had the proper equipment and set-up to do her work.

Saturn (transiting) quincunx Uranus -- strain -- didn't quite have the right theory.

7/4/1898 -- found radium -- Sun conjunct Uranus, square Neptune. [Note to J: Radium was not discovered until December 21, 1898. AB might mean polonium, which was discovered in July, 1898.]

Venus tri-septile Uranus -- prominent thumb, determination. [Cancer 13, "A hand, which is held out receptively, is remarkable for the suggestion of character in its prominent thumb."]

Venus, 17 Sagittarius -- Easter sunrise service, rebirth, realization of immortal resources. [Sagittarius 17, "An Easter sunrise service is about to begin at the suggestion of dawn; darkness surrenders to the worshippers."]

Mercury tri-septile Pluto

You have a premonition or feeling that something flew by you, but it was so quick you didn't get it -- that's Mercury.
